SUMMARY

Currently in an advanced diploma program and eager to contribute to the Software Developer Co-Op position by leveraging knowledge in software development, and testing. Proficient in object-oriented programming languages, including C#, Java, and .NET and Entity frameworks.

EDUCATION

Advanced Diploma in Software Engineering Technology
Conestoga College, Expected Graduation Date: April 2025
Cumulative GPA: 3.85

SKILLS SUMMARY

- **Programming Languages & Frameworks:** Proficient in C#, Java, JavaScript, HTML, and CSS; experienced with .NET frameworks including Entity Framework, Web API, and MVC.
- **Cloud Computing & DevOps:** Understanding of cloud infrastructures, particularly Azure, and basic principles of DevOps practices, with eagerness to learn more in a hands-on environment.
- **Agile & Scrum Methodologies:** Experience with Agile development processes and Scrum methodologies, emphasizing teamwork and efficient project management.
- **Software Development & Testing:** Capable of contributing to the development and testing of software solutions, with experience creating unit and integration tests that follow best practices.

EXPERIENCE

IT Assistant | **Kodestage Technology Pvt. Ltd**   **Feb 2020 – Aug 2021**

- Contributed to software deployment projects with a focus on Java and web technologies, enhancing application functionalities and user experience.
- Utilized Microsoft Office Suite to prepare documentation and presentations, facilitating effective communication across the team.
- Engaged in exploratory projects to assess new technologies, including ServiceNow, demonstrating adaptability and a strong capacity for technical learning.

PROJECTS

Trip Planner | **Academic Project**   **Jan 2024 – Feb 2024**

- Led the project using Agile methodologies, focusing on detailed planning and execution, and Android, Java, and JavaScript for development, underscoring a solid programming and project management foundation.

Transport Management System | Academic Project   **Oct 2023 – Dec 2023**

- Applied C# and analytical skills to develop a robust system, emphasizing attention to detail through rigorous testing and customization.
- Conducted in-depth research to enhance system functionalities, demonstrating exceptional skills in leveraging technology for problem-solving.

ADDITIONAL INFORMATION

- **Available for Co-op:** Open for 4 to 16 months of co-op placement with a strong desire to gain practical experience in software development, particularly in .NET C#, cloud computing, and Agile environments.
